PROJECT DESCRIPTION

The City of Deerfield Beach Water Department supplies more than 52,000 homes and business throughout its community with high quality water — keeping pace with ever growing demand through the planning, upgrading and expansion of its facilities; each time meeting the need for plentiful, safe drinking water while ensuring compliance with increasingly stringent regulatory requirements.

SERVICES PERFORMED

All labor, materials, equipment, tools, services and incidentals required to complete the work of furnishing and installing improvements at the West Water Treatment Plant including, but not limited to, three (3) 50-HP constant speed vertical turbine stainless steel pumps, a pre-cast concrete wet-well, modifications to the closed circuit television system and all associated electrical, instrumentation and miscellaneous site work.

COMPLETION DATE

2007

PROJECT COST

\$ 1,230,684
