PROJECT DESCRIPTION

Waterworks 2011 is a \$550 MM infrastructure program which includes sanitary sewer, water main replacement, forcemains, wellfield expansions and water treatment plant renovations all to be completed in 2011 by the City's 100 year anniversary. As part of the program, sanitary sewer service was extended throughout the entire Riverside Park and Melrose Manor neighborhoods; areas of the City which were currently unsewered and utilizing septic tanks for disposal of both residential and commercial sewage. The work was undertaken by the City to mitigate the long term, unacceptable impact of septic tanks upon ground water and adjacent surface water, particularly in urban areas.

SCOPE OF WORK

Installation of gravity sanitary sewer systems; including approximately 109,000 LF of sanitary line, 9,200 LF 8" forcemain, 5,500 LF 8" and 16" water main, over 2,500 sewer lateral connections, and all required sidewalk, drive and roadway restoration. Over 600,000 SY of roadway reconstruction.

COMPLETION DATE

2009

PROJECT CONTRACT
